Change Lives

Grow

Hope!

Shape

a child's future!

Provide

for the needs of future generations

Produce

greater interaction among multiple generations.

Develop

expanded mentoring and youth enrichment programs/activities.

Support

the development of young intellects preparing for post-high school endeavors.

Give

our students the same quality computer and science labs as better funded school districts have.

Build

a better place for our youth to go during off-school hours than the streets, subways, hangouts, malls and cars.

Construct

a safe place for our children's gym classes, family fitness development and special activities regardless of the weather.

Design

a multi-purpose community center that will meet a broad spectrum of inter-generational needs in the surrounding community.
